

# More than 24,000 Garbage Carts Sold!

## Oversized Garbage Cans Not Permitted

Residents are required to use garbage containers that are 32-gallons or less in size, weighing less than 60 pounds when filled with household waste. This regulation, a provision in the city's current contract with Allied Waste, will be strictly enforced.

## Wheeled Garbage Cart Sales Continue

The use of containers larger than 32-gallons that are filled above the 60-pound limit has caused injuries to Allied Waste drivers. The city strongly encourages the use of the wheeled garbage carts for your safety as well as the haulers. (See pictures of the cart sizes on the reverse side.) Residents who are using these carts have found them to be convenient and easy to store and use.

Residents have the choice of purchasing a 95-gallon, 68-gallon or 32-gallon wheeled cart from the city. These carts are lifted mechanically by the garbage trucks and are not subject to size regulations; however, the weight restriction is 220 pounds.

Carts weighing more than 220 pounds are unable to be lifted mechanically by the garbage trucks.

Bring the order form with payment. There is no delivery fee for pick up.
